- Programming

EXPERIENCE

Bidvest International Logistics
Applications Developer
January 2023 - May 2024

I've led the enhancement of existing applications and the development of new software solutions with C#, SQL and front-end languages. By interpreting business needs, I've delivered timely applications that meet customer requirements. Upholding high system development standards, I prioritize comprehensive documentation and adhere to enterprise architecture guidelines. I foster collaboration, contributing to team efficiency and accountability. Committed to personal growth, I approach challenges with a proactive and enthusiastic mindset.

Cape Peninsula University of Technology
Game Development Intern
July 2022 - December 2022

Created game levels in Unity, integrated mechanics and assets smoothly. Composed original music and sound effects using Fruity Loops for immersion. Developed efficient C# code for game features and optimizations.

EDUCATION

Cape Peninsula University of Technology
Diploma in Information Communications Technology
2020-2022

Wits Business School
Power Skills Training
2023

SKILLS SUMMARY

Development Process	100%
